## Silver Chloride

### Certificate of Conformance

Salt Lake Metals hereby certifies that the materials shipped conform to all material properties specified below.

#### Material Properties:

**Synonyms:** AgCl, Cerargyrite, Chlorargyrite, Horn Silver, Silver(I)Chloride.

**CAS Number:** 7783-90-6

**Formula Weight:** 143.32 grams/Mole -- (AgCl contains 75.25% Silver)

**Appearance:** White Powder

**Purity:** 99.95%minimum

**Density:** 5.56 typical

**Particle Size:** 0.021 inches max - (21 thousandths of an inch)

**Melting Point:** 445°C ( 833°F ) typical

**Boiling Point:** 1550°C ( 2822°F ) typical

**Shelf Life:** Indefinite.
